PROFILE

Senior UX/UI Designer with 10+ years of experience designing user-centric web and mobile applications across enterprise, real estate, and customer-facing digital platforms. Experienced in translating business and user requirements into intuitive UX strategies, user journeys, wireframes, prototypes, and high-fidelity interfaces, with strong experience in design systems and developer handoff.

Currently working at ARADA Developments, delivering end-to-end UX/UI solutions for internal and customer-facing digital products. Experienced in collaborating with Business Analysts, Project Managers, business stakeholders, developers, and cross-functional teams to define requirements, solve complex interaction challenges, and deliver scalable and responsive digital experiences.

Strong knowledge of design systems, component libraries, responsive design, usability principles, accessibility, prototyping, developer handoff, and implementation review, with a focus on consistent, scalable, and business-focused digital experiences.

CORE UX/UI EXPERTISE

UX Strategy & Research User Research · User Interviews · User Personas · User Journeys · Information Architecture · Requirements Analysis · Usability Testing · UX Heuristics

UX Design User Flows · Wireframing · Interaction Design · Prototyping · Responsive Design · Mobile & Web UX · Cross-Platform Design

UI Design Visual Design · Design Systems · Component Libraries · Typography · Visual Hierarchy · Brand Consistency

Accessibility Accessibility-Focused Design · WCAG Principles · Inclusive Design · Accessible Interaction Patterns

Collaboration Stakeholder Management · Requirements Workshops · Developer Collaboration · Design Reviews · Developer Handoff · Interaction Specifications · Agile / Iterative Design

TOOLS & TECHNOLOGIES

Design Tools Figma · Adobe XD · Adobe Photoshop · Adobe Illustrator · Adobe After Effects · Adobe Creative Suite

AI & Content Tools Synthesia · Pictory

Technical Knowledge HTML · CSS · WordPress CMS · Responsive Web Design · Front-End Design Collaboration · Component-Based Design Handoff

UX DESIGN METHODOLOGY

Discover → Define → Research → User Personas → User Journey → Information Architecture → User Flow → Wireframes → Prototype → Usability Testing → UI Design → Design System → Component Architecture → Developer Handoff → Implementation Review

PROFESSIONAL EXPERIENCE

UI/UX Designer | ARADA Developments LLC

Apr 2022 – Present | Dubai, UAE

- Lead end-to-end UX/UI design for enterprise, internal, and customer-facing web and mobile applications, translating business requirements and user needs into intuitive digital experiences from concept through implementation.
- Collaborate with Business Analysts, Project Managers, business stakeholders, sales teams, and developers to understand requirements, define workflows, resolve UX challenges, and align solutions with business objectives and technical feasibility.
- Conduct UX discovery activities including stakeholder discussions, user feedback analysis, requirement analysis, and usability evaluation to identify user needs, pain points, and opportunities for improvement.
- Create user personas, user journeys, information architecture, user flows, wireframes, interactive prototypes, and high-fidelity UI designs, using reusable components and scalable interaction patterns where appropriate.
- Design responsive and cross-platform experiences across mobile, tablet, and web, ensuring consistency in layout, navigation, interactions, component behaviour, and visual hierarchy.
- Develop and maintain reusable design patterns, components, and design systems to improve consistency, scalability, and efficiency across digital products.
- Conduct design reviews and usability evaluations with stakeholders and business teams, incorporating feedback and iterating on solutions before development.

- Work closely with front-end and back-end developers throughout implementation to ensure design feasibility, accurate execution, responsive behaviour, interaction states, edge cases, and consistency with approved UX/UI specifications.
- Apply accessibility and inclusive design principles, including clear hierarchy, readable typography, appropriate contrast, touch targets, and accessible interaction patterns.
- Manage multiple UX/UI projects simultaneously, prioritising requirements, coordinating feedback, and delivering design solutions within project timelines.
- Create prototypes and visual demonstrations to communicate complex workflows and digital product experiences to stakeholders and development teams.
- Produce AI-assisted explainer videos and step-by-step user guides using Synthesia and Pictory to support product adoption and reduce training dependency.

Selected Projects

ARADA Broker App — Designed a mobile platform for external real estate brokers to manage leads, protect opportunities, request EOIs, book units, invite team members, and request property media and events.

Customer Web Portal — Designed a responsive self-service web portal giving customers a single place to view their property and account details, track payment schedules, access documents, and raise and follow up on requests.

Lead Management App — Designed a lead management platform for sales teams to improve lead tracking, follow-up, and conversion across the sales pipeline; also designed payment workflows for residents to manage installment plans, service charges, and utility payments.

Creative Designer | Univations Design Est

Sep 2016 – Mar 2022 | Dubai, UAE

- Designed websites, digital interfaces, brand identities, and visual communication materials for a diverse range of clients.
- Developed website layouts and UI concepts with a focus on usability, visual hierarchy, responsive structure, and brand consistency.
- Collaborated directly with clients and internal teams to understand requirements and translate business objectives into visual and digital solutions.
- Managed multiple projects simultaneously, presenting concepts, incorporating feedback, and delivering final design assets within deadlines.

Web & Graphic Designer | PTL Solar FZ LLC

Dec 2015 – Aug 2016 | Dubai, UAE

- Designed WordPress websites, landing pages, and responsive digital layouts for product-focused web experiences.
- Created digital marketing assets and collaborated with internal teams to maintain consistent visual communication.

Junior Designer | Ratna Softnet

2015

- Supported website UI concepts, early wireframes, digital graphics, and marketing materials for small businesses and startups.

REQUIREMENTS & STAKEHOLDER MANAGEMENT

- Analyse business and user requirements and translate them into user-focused UX solutions, considering technical feasibility, reusable components, and scalable interaction patterns.
- Facilitate design discussions with stakeholders and project managers to clarify requirements, workflows, priorities, technical considerations, and expected outcomes.
- Present UX concepts, wireframes, prototypes, final UI designs, and developer handoff specifications to stakeholders and development teams for review and approval.
- Resolve conflicting requirements by balancing user needs, business objectives, technical feasibility, reusable design-system patterns, and project constraints.

ACCESSIBILITY & RESPONSIVE DESIGN

Accessibility & Inclusive Design Experienced in applying accessibility principles to digital interfaces, including visual contrast, typography, touch target sizing, information hierarchy, clear interaction states, readable content, and inclusive interaction patterns, with awareness of WCAG guidelines.

Responsive & Cross-Platform Design Experienced in designing consistent experiences across mobile, tablet, and desktop platforms, adapting layouts, components, navigation, content hierarchy, and interactions according to screen size and context.

EDUCATION

Bachelor of Engineering – Computer Science

St. Xavier Catholic College of Engineering, India | 2010 – 2014
